ABOUT OUR CAUSE

The Cardiovascular Foundation of Southeast Texas (CFST) was inspired by what we've learned from more than 100 clinical trials as principal investigators over the past 20 years at the Southeast Texas Clinical Research Center (SETCRC). Those trials evaluated both medical treatments and devices designed to improve cardiovascular outcomes.

The SETCRC supports the design and performance of clinical trials to improve the diagnosis and treatment of cardiovascular disorders. The CFST is currently funding the design and development of two medical research and software projects.

The Foundation grants educational scholarships for healthcare students in Southeast Texas. CFST also provides funds for medical assistance for indigent patients in our community.

The Scott Family

The Bardin Family

This year's CFST Shoot-Out will benefit Braden Luke Scott, JR Bardin, and their families.

Since July of 2016, young Braden Luke has been battling Acute Flaccid Myelitis. Husband and father, JR, was diagnosed with Arterial Thoracic Outlet Syndrome in August of 2016. Both families have endured major life-changing struggles with extended hospital stays between Beaumont, Houston, and Dallas for treatment, recovery, and rehabilitation.

The mission of the Cardiovascular Foundation of Southeast Texas (CFST) mission is to improve cardiovascular outcomes through clinical research, education, and patient assistance.

The Foundation provides funding for health care for Southeast Texas patients who are in need. These funds assist with diagnostics, treatment procedures, and medications.
