ABOUT OUR CAUSE

The Cardiovascular Foundation of Southeast Texas (CFST) was inspired by what we've learned from more than 100 clinical trials as principal investigators over the past 20 years at the Southeast Texas Clinical Research Center (SETCRC). Those trials evaluated both medical treatments and devices designed to improve cardiovascular outcomes.

The SETCRC supports the design and performance of clinical trials to improve the diagnosis and treatment of cardiovascular disorders.

The Foundation grants educational scholarships for healthcare students in Southeast Texas. CFST also provides funds for medical assistance for indigent patients in our community.

For more information, please visit our website at setxcardiofound.com.
